

May 13, 2020

Dear SCHB Member,

You are invited to the 7th weekly installment of the SCHB members-helping-members hour-long group discussion led this week by SCHB member, Brett Bosley, on Friday afternoon May 15, 2020 at 4pm ET.

- This week the topic is: *Department of Energy National Laboratories: Technology licensing and business development from a small company perspective, plus open discussion on doing business with the U.S. Government.*

SCHB member facilitator bio: Brett Bosley is co-founder of Pittsburgh-based Boron Specialties, LLC. Previously, Brett was VP for Science and Technology at Battelle, and a member of its senior leadership team. Before that, he held management positions at large, small, and venture-backed companies in the chemical and life sciences industry. Brett currently serves on the boards of the Oak Ridge and Brookhaven National Laboratories. His perspectives in this session are personal and do not represent those of Battelle, the Department of Energy, or its national laboratories.

Please join us this Friday May 15, 2020 at 4pm ET and RSVP to pr@acs-schb.org asap. Dial-in credentials will be emailed two hours before the telecon. Late registrations are open until just before the call starts by emailing pidgirl@gmail.com.

Do you have specific questions/areas of interest that you hope our facilitator can cover? If yes, please email Brett directly [here](#).

Do you have any ideas for upcoming SCHB member group discussions? If yes, are you interested in learning more about that topic or are you interested in facilitating one of our weekly discussions? Please let us know by replying to this email.

Watch for upcoming communication from us related to the SCHB Member Directory. This is an opt-in benefit that we offer to members-only and we will be asking you to update your listing should you wish to be included.
